PROGRAM SCOPE

This was a follow-up inspection for an escalated enforcement violation of 10 CFR 30.34(i) in which the licensee was found to have stored the gauge in a storage room with only one lock on the door when the gauge was not under the control and constant surveillance of the licensee. The inspector reviewed the corrective actions taken by the licensee.

The licensee's corrective action was to place a second lock (dead bolt) on the storage room door.

The licensee had a keyed lock on the storage room door handle with the required second lock (a deadbolt) above it. The licensee also had the gauge locked and chained in this storage room.
