

April 8, 2011

Mr. Eldon Allison
U.S. Bureau of Land Management
Rawlins Field Office
1300 North Third Street
P.O. Box 2407
Rawlins, WY 82301

SUBJECT: PRELIMINARY FINAL SUPPLEMENTAL ENVIRONMENTAL IMPACT
STATEMENT FOR THE LOST CREEK SOURCE MATERIAL LICENSE
APPLICATION

Dear Mr. Allison:

As a result of the Wednesday, April 6, 2011, teleconference regarding the preparation of two National Environmental Policy Act documents for the Lost Creek Project, one for the source materials license (U.S. Nuclear Regulatory Commission [NRC]) and the other for the plan of operation (Bureau of Land Management [BLM]), the NRC is pleased to send you a preliminary copy of its Final Supplemental Environmental Impact Statement (SEIS). This copy does not represent the final version of the SEIS. The document is still being reviewed by different offices within the NRC, have not been reviewed by our legal counsel, and license conditions, references, citations, and statements within the document are being confirmed for accuracy; therefore, the document should not be interpreted as complete. The enclosed copies are pre-decisional and draft and have been marked as such. Any requests to disclose the documents publicly should be referred to the NRC. Finally, because the document is in draft form and has not been formatted, it is being provided by chapters with the appropriate markings.

You may, as was discussed during the teleconference, share this document with your contractor, since it is considered an 'arm' of the BLM. However, the disclaimers, described above, also apply to your contractor.

If you have any questions or comments, or need clarification on issues concerning the Preliminary Final SEIS, you may contact Alan Bjornsen at (301)-415-1195, or via e-mail at alan.bjornsen@nrc.gov.

Sincerely,

/RA/

Kevin Hsueh, Chief
Environmental Review Branch-B
Division of Waste Management
and Environmental Protection
Office of Federal and State Materials
and Environmental Management Programs

Enclosure:
Four CDs (Preliminary Final SEIS for Lost Creek)
