Colleen
It was a pleasure speaking with you today. As requested, please let this email serve as a request to VOID documents from Avera Queen of Peace Hospital bearing control #573591 from September, 2010 (Deleting Charles Carver) and #574773 from March 17, 2011 (Adding Renu Saxena and remove several other AMPs). A revised notification will be sent from that facility in the near future. I truly appreciate your cooperation in this matter.
Best regards,

Linda Ramirez
