**Importance:** High

Paul,

The NRC and Corps met with the FWS on March 14 to discuss targeted surveys for T&E and consultation. The presentation used for the meeting is attached. Please note that the Red Cockaded Woodpecker is on NRC's list as a Federally listed species potentially occurring in some areas of the transmission line ROW.

The NRC also developed screen shots of areas that may require surveys. I will forward that information to you later today.

Thanks,

Doug
