

April 13, 2011

Mr. Al Coons, Lead Specialist  
Emergency Management Program  
Federal Emergency Management Agency  
1800 South Bell Street, Room 828  
Arlington, VA 22202

Dear Mr. Coons:

Thank you for presenting at the U.S. Nuclear Regulatory Commission's (NRC's) 23rd Annual Regulatory Information Conference (RIC), March 8–10, 2011, in Rockville, Maryland. This year the total number of participants reached over 2,900 participants including international representatives from 28 countries.

Initial feedback from participants indicates that this year's RIC was another resounding success. Your dedication and support helped the NRC "raise the bar" this year to develop a comprehensive program filled with discussion topics that are timely and relevant.

Your presentation on "Current Issues In Emergency Preparedness" provided important information and another perspective about initiatives that are underway in the nuclear arena. All final presentation slides and questions that were not addressed during the conference are being compiled and will be posted on the NRC's RIC website at:  
<http://www.nrc.gov/public-involve/conference-symposia/ric/index.html>.

Again, thank you for your participation at NRC's 2011 RIC. It is your commitment and support that helped to make the RIC a success. We hope you will join us for the 24th Annual RIC March 13-15, 2012, scheduled to be held at the Bethesda North Marriott Hotel and Conference Center, Rockville, Maryland.

Sincerely,

*/RA/*

Brian J. McDermott, Director  
Division of Preparedness and Response  
Office of Nuclear Security and Incident Response
