

April 13, 2011

Mr. James Kish, Director
Division of Technological Hazards,
National Preparedness, & Protection Directorate
Federal Emergency Management Agency
1800 South Bell Street, Room 828
Arlington, VA 22202

Dear Mr. Kish:

Thank you for participating as a co-chair and presenter at the U.S. Nuclear Regulatory Commission's (NRC's) 23rd Annual Regulatory Information Conference (RIC), March 8 – 10, 2011, in Rockville, Maryland. This year the total number of participants reached over 2,900 participants including international representatives from 28 countries.

Initial feedback from participants indicates that this year's RIC was another resounding success. Your dedication and support helped the NRC "raise the bar" this year to develop a comprehensive program filled with discussion topics that are timely and relevant. \ The session, titled "Current Issues in Emergency Preparedness", provided important information and another perspective about initiatives that are underway in the nuclear arena. All final presentation slides and questions that were not addressed during the conference are being compiled and will be posted on the NRC's RIC website at: <http://www.nrc.gov/public-involve/conference-symposia/ric/index.html>.

Again, thank you for your participation at NRC's 2011 RIC. It is your commitment and support that helped to make the RIC a success. We hope you will join us for the 24th Annual RIC March 13-15, 2012, scheduled to be held at the Bethesda North Marriott Hotel and Conference Center, Rockville, Maryland.

Sincerely,

/RA/

Brian J. McDermott, Director
Division of Preparedness and Response
Office of Nuclear Security and Incident Response
