Subject: Verification of correct address

(NOTE: This will be used as the Documents Title in ADAMS)

The licensee's mailing address in the renewal application did not match the address currently on the license. I called the RSO to obtain correct mailing address. The RSO was not available but the person answering the phone stated that previously they occupied only part of the building (part B), but now they have acquired the entire building and located at 204 Grayson Road, therefore it is no longer necessary to include -B after 204 in the mailing address.

Action Required: Document/Process the renewal with address as listed on the application
