Steve

Attached is draft RAI 5699 prepared by the NRC staff for the environmental review of Turkey Point Units 6 and 7. RAI 5699 is related to staff access to the site certification application. This doesn't clearly connect to a specific portion of the EIS. But it seemed closest to Section 1.5, which includes a list of permits and authorizations.

After you've had an opportunity to review the RAI, we can set up a call involving FPL and NRC for any clarifications of the request. At that time we can also discuss an appropriate timeframe for the FPL response. If you have any questions, please give me a call.

QUESTIONS for Environmental Projects Branch 2 (RAP2)

EIS 1.5-***

FPL provided considerable technical information to the State of Florida in the site certification application (SCA). The staff requests that FPL provide the Uniform Resource Locators (URLs) for the filings that FPL has submitted to the State; for the SCA as originally submitted, for any revisions to the SCA, and for FPL's subsequent responses to completeness questions regarding the SCA. This request covers both portions of the SCA - the plant and the offsite linear facilities.
