

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**

REGION III
2443 WARRENVILLE ROAD, SUITE 210
LISLE, IL 60532-4352

April 11, 2011

LICENSEE: Exelon Generation Company, LLC

FACILITY: Quad Cities Nuclear Power Station

SUBJECT: SUMMARY OF THE APRIL 5, 2011, OPEN HOUSE PUBLIC MEETING TO DISCUSS NRC ACTIVITIES, NUCLEAR POWER ISSUES, AND THE QUAD CITIES NUCLEAR POWER STATION 2010 END-OF-CYCLE PLANT PERFORMANCE ASSESSMENT

On April 5, 2011, an open house public meeting was held at the Cordova Civic Center, Cordova, Illinois, between the U.S. Nuclear Regulatory Commission (NRC) and the Quad Cities Nuclear Power Station management and staff. The purpose of the open house meeting was to provide an opportunity for the public to discuss NRC activities, nuclear power issues, and Quad Cities Nuclear Power Station performance for the period of January 1, 2010, through December 31, 2010. The NRC letter and meeting notice for this open house can be found in the Agencywide Documents Access and Management System (ADAMS) as ML110680058 and ML110680046 respectively. The sign in sheet for the open house public meeting is enclosed, as well as the list of representatives from the NRC, and the Illinois Emergency Management Agency (IEMA).

The open house discussed an overview of the NRC's Mission and Strategic Goals, the Reactor Oversight Process (ROP), and national ROP results. The NRC discussed other agency regulatory activities such as nuclear security and safeguards, the license renewal process, spent nuclear fuel and independent spent fuel storage installations, radiation safety, new nuclear power plant construction, and licensing activities.

The NRC also provided discussions related to the NRC's assessment of the Quad Cities Nuclear Power Station performance, which was documented in the March 4, 2011, End-of-Cycle Assessment Letter (reference ADAMS Accession Number ML110620522). As part of this open house, both Exelon and IEMA were available to address questions and concerns.

Slides used to describe the NRC's ROP process and Quad Cities Nuclear Power Station 2010 performance can be found in ADAMS under ML110960278. Throughout the open house, members of the public and local news organizations were given the opportunity to ask questions of IEMA officials, Exelon officials, and NRC officials.
