Mr. Wilson,

As discussed previously during your recent inspections, and as a follow up to my license amendment letter dated 3/30/2011, the MT Group will be decommissioning the old address for the Connecticut facility. 35A North Plains Industrial road will no longer be the location to house our staff and equipment. Due to the extreme weather conditions which caused damage to the structure the MT Group was forced to move. Although the roof collapse did not happen directly above our office or lab, the building was deemed unsuitable to conduct business so we were forced to relocate. No damage had occurred to any persons or equipment. The MT Group conducts leak tests on all of our gauges on a semiannual basis and has never had any reports indicating a leaking gauge, therefore we are leaving this facility in an environmentally safe condition.

Should you have any questions regarding this action please do not hesitate to call me

Sincerely,

 Frank G. Pennisi
 Regional Vice President
 RSO
