Subject: RE: Comanche Peak chapter 8 RAI Status

Thanks, Ngola. This clears things up for us. We just wanted to make sure we understood the status correctly. And Steve, thanks to you for updating your Project Status Table to reflect these conversations. We'll continue to discuss the open items at our weekly conference calls.
Todd

Subject: RE: Comanche Peak chapter 8 RAI Status

Todd,

The status provided is the latest a most accurate status of the RAI questions for chapter 8. Questions 08.02-5, 08.02-8, and 08.02-11 with a status of "Question Closed/ Issue Unresolved" are three questions where the response was unsatisfactory or the response did not provide the exact information that the staff was looking for. Those questions were closed and three new questions were developed, namely Questions 08.02-26, 08.02-27, 08.02-28. No action is required on Luminant's part for these questions. Questions 08.02-24, 08.02-27, 08.02-29 with a status of "Confirmatory Action NRC" are three questions where the response is acceptable, but NRC staff has to confirm the change in the next FSAR revision. Once these confirmatory items are verified, they will be status as "Resolve/Closed".

Note:

This is the most up to date information about the RAI status, but there may be changes to the status of individual questions after the phase 2 safety evaluation is reviewed by all parties.

Subject: FW: Comanche Peak chapter 8 RAI Status

Ngola,

Thanks for the status you provided last week on COLA FSAR Chapter 8. I have a few questions regarding the status file you sent. I would appreciate any clarifications you can give – I just want to be sure that I correctly understand the status and am addressing issues that need to be addressed so that your reviewers have the information they need.

1. Your status file lists 3 questions with a status of “Question Closed / Issue Unresolved”. These are questions 08.02-5, 08.02-8, and 08.02-11. Can you clarify what is meant by “Issue Unresolved”. I am not currently aware of any issues related to these three questions that remain unresolved. If there are any unresolved items, we would like to know what they are so that we can address them.
2. The attachment lists 3 questions with a status of “Confirmatory Action NRC” (questions 08.02-24, -27, and -29). Steve Monarque’s RAI status sheet also lists several questions as “confirmatory items” for Chapter 8; however, the two lists appear to be inconsistent with each other as the questions that are labeled “confirmatory” on the respective lists are not the same. Can you clarify this for me?

Thanks,
Todd Evans

Subject: Comanche Peak chapter 8 RAI Status

Don,

I have attached the list of chapter 8 RAIs that shows the status for each question.

RAI 5116, Question 08.02-30 (CP RAI 182), initial response was inadequate, and since supplementary response will be submitted, we have stasured the question as “Confirmatory Action Applicant” and the question is currently and “Open Item”. The supplemental response will be evaluated by NRC staff and if accepted the ‘Open Item” will be resolved.

RAI 5117, Question 08.04-01 (CP RAI 183), initial response was inadequate, and since supplementary response will be submitted, we have stasured the question as “Confirmatory Action Applicant” and the question is currently and “Open Item”. The supplemental response will be evaluated by NRC staff and if accepted the ‘Open Item” will be resolved.

Please call me if you have any questions.
