Dear Mr. Barker:

Enclosed are copies of the January 2011, updated "Ohio Plan for Response to Radiation Emergencies at Commercial Nuclear Power Plants", for the State of Ohio and the "Radiological Emergency Response Plan", for Ottawa and Lucas Counties.

We request that you review the materials for conformity to Title 44, Code of Federal Regulations, Part 350, and the requirements in NUREG-0654. Revisions to the plans are indicated by a vertical line positioned on the right of applicable pages. In addition, we have enclosed a copy of the "Guide to Revisions" for each plan, dated 01/11, to assist you with what changes have been made since 01/10. Please provide written comments regarding your review to DHS/FEMA, Region V, by May 7, 2011.

Please retain the prior approved plan sections until all Regional Assistance Committee members have provided us with their review comments. At that time we will notify you of our findings concerning final approval, and provide updating instructions.

If you should have any questions, please contact me at (312) 408-5575 or Carolyn L. Sturghill at (312) 408-5379.

Sincerely,

A handwritten signature in black ink, appearing to read "William E. King".
