SUBJECT: Request to Amend NRC License No. 50-29058-01

Please accept this request to amend NRC License No. 50-29058-01. I would like the license to state that Scott Milliken is the current Radiation Safety Officer, replacing Lynn Thompson.

I have been employed by GVEA for 23 years and have had annual training for the nuclear sources on site. I have inherited the custodial responsibilities for (8) cesium 137 and (1) americium 241 source since 2006 when I became Maintenance Manager of Healy Plant. I manage the inventory, signage, 3 month leak tests, annual license registration fees, material fees and annual training for 32 GVEA employees.

I will attend the next available RSO training in May 2011, in order to receive a certificate of completion as outlined in NUREG-1556, Vol. 4, Item 8.7.1 and Appendix G.

not on License

Sincerely, S J Milliken
