

April 12, 2011

Mr. Robin DeLaBarre
Office of Nuclear Energy,
Safety & Security Affairs, Room 3320 HST
Bureau of International Security
& Nonproliferation
U.S. Department of State
2201 C Street, NW
Washington, D.C. 20520

Dear Mr. DeLaBarre:

Enclosed is an application (XSNM3681) dated April 6, 2011, recently received by the U.S. Nuclear Regulatory Commission (NRC) from Mitsui & Co. (U.S.A.), Inc., for the export of low-enriched uranium (LEU) in the form of uranium dioxide (UO₂) to Japan for use as reload fuel in Hamaoka Unit 3.

Assurances from Japan that the material will be subject to all of the terms and conditions of an agreement for cooperation are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the material is of Australian, Canadian, and Kazakh origin; converted in the United States; enriched in France; and reconverted in the United States. It, thus, has Australian, Canadian, and EURATOM obligations. Please also note that the applicant has requested, if possible, expedited review.

Sincerely,

/RA/

Janice E. Owens, Branch Chief
Export Controls and International Organizations
Office of International Programs
