Mr. Edson G. Case
Acting Director
Directorate of Licensing
U.S. Atomic Energy Commission
Washington, D.C. 20545

Dear Mr. Case:

This is to confirm the discussions between Mr. James Burger of this office and Mr. William D. Paton of your General Counsel's office on August 9, 1974, concerning the scope of TVA's activities on the site of the proposed Bellefonte Nuclear Plant prior to issuance of a limited work authorization.

The Bellefonte site is presently owned by the United States of America. TVA has not undertaken and does not intend to undertake any activities on this site for which a construction permit or limited work authorization is required until such permit or authorization has been issued. As we told Mr. Paton, however, TVA does intend to bring some construction equipment from other TVA projects and other items of personal property onto the property for storage purposes until the LWA is issued. This will not involve any road work, grading, excavation, or construction of storage buildings.

If additional information is needed, please let us know.

Very truly yours,

Robert H. Marquis

Robert H. Marquis
