**Importance:** High

Shawn,  
Chris has had extensive training with oral review of health physics applications including regulations applicable to the service provider license and to nuclear power plants. In addition to the Health Physics training he has documented hands on training of around 700 hours with a review of each device and the safety system to each device. If any other information is required please contact me.

Thanks Terry. Can you please further confirm: *In addition, can you please confirm that the Mr. Nostrand has successfully completed a didactic course examination and a practical examination with your company.*

Thanks again. Shawn

Shawn,  
After reviewing NRC License 37-30850-01 I do not see that this should cause any problems with my licensed activities.

**Cc:** Modes, Kathy  
**Subject:** follow up to phone conversation

Terry, as I promised here is a summary of our conversation this morning:

A: As I mentioned this morning, I am assisting Kathy Modes on your amendment request to add an authorized user on your license while at the same time we are taking and administrative action to change the conditions of your license regarding possession limits. I mentioned that this would allow us to remove the security banners from your license. You wanted to see those changes to confirm that they would work for you. Here are the changes to your license:

Condition 8 will read as follows for all isotopes (items 6.A through 6.H)

8. Maximum amount that licensee may possess at any one time under this license
- A. Not Applicable

(See Condition 10)

The current Condition 10 (and following conditions) will be renumbered starting with 11 and go through 15 (note: the current condition 15 will be removed with the change in possession limits). The new Condition 10 will read as follows:

10. The licensee does not take possession of the radioactive material(s) and/or source(s) while at the client's facility.

*Please confirm that these changes will work and are acceptable for you.*

B: You also asked for the address to send a copy of the letter requesting an individual be added as a reviewing official. The address and contact is as follows:

ATTN: Kim Lukes

TWEN M/S 8 I5

US NRC

11155 Rockville Pike

Rockville, MD 20852

*In addition, can you please confirm that the Mr. Nostrand has successfully completed a didactic course examination and a practical examination with your company.*

Thank you for your assistance in moving this action forward. If you need have any further questions, please do not hesitate to email or call. Thanks again.

Shawn
