April 5, 2011

Gregory Jaczko, Commissioner  
Nuclear Regulatory Commission  
Two White Flint North  
111545 Rockville Pike  
Rockville, MD 20852-2738

Dear Commissioner Jaczko:

Referenced is your letter dated March 18, 2011 requesting information relating to my appointment of the NRC State Liaison Officer for the State of North Dakota. Terry O'Clair was previously appointed to that position by Governor Hoeven and it is my decision to also designate Mr. O'Clair as the State Liaison Officer for North Dakota.

The State of North Dakota recognizes the importance of a strong relationship between the Nuclear Regulatory Commission and the State to insure safety and health protection to the residents of the state as well as nuclear security and nuclear emergency preparedness to the state and the nation.

With the reappointment of Mr. O'Clair, the State of North Dakota continues to promote the long standing relationship between the Nuclear Regulatory Commission and the State. Serving as the State Liaison Officer, Mr. O'Clair accepts the challenge of the duties of the Office and will continue to focus on open communications in the spirit of cooperation with the Commission to the benefit of both the State and the Commission.

Thank you for your continued support of the North Dakota's Radiation Control Program.

Sincerely,

  
Jack Dalrymple  
Governor
