Subject: Fire Protection Report - Side by Side Comparison Issue

During the public meeting on 3/29/11 regarding the Fire Protection Report, the NRC (Chuck Moulton) made a comment regarding the side by side comparison version of the report attached to the March 16, 2011 letter. The comparison document stopped after Part II Table 14.6 and did not include Tables 14.7, 14.8, 14.9 and 14.10.

TVA has researched the issue and has discovered that when comparisons are done using Adobe, the side by side comparison does not show pages which are unchanged. The Tables 14.7 thru 14.10 were unchanged from the version submitted in January and thus do not show up in the side by side comparison. The same effect is seen between Part II pages 120 and 127.

Since this is not an error, we will not resubmit the 3/16/11 FPR side by side comparison. In all future submittals transmitting a comparison document, we will include a statement to alert the reader to this attribute of the document.

We are still researching the other text referred to in the RAI response that appears to be missing from the FPR and will let you know shortly the reason for the omission and a plan for complete resolution. We will be initiating a PER on this issue.

I called Dan Frumkin and explained this to him. He was going to pass the info on to Chuck Moulton.
