Dear Ms. Jenny:

The Nuclear Regulatory Commission (NRC) received your letter PCJ-11-001, dated April 4, 2011, which requested a transition from Global Nuclear Fuel – Americas, LLC (GNF-A), Docket Number 70-1113, to GE-Hitachi Global Laser Enrichment, LLC (GLE), Docket Number 70-7016, as the possessing holder of the facility clearance.

The request submitted a Standard Practice Procedures Plan (SPPP) for the protection of classified matter at GLE, as well as non-possessing SPPPs for both GNF-A and GLE. Enclosure 4 (updated Foreign Ownership, Control, or Influence information) was submitted separately.

The NRC review has been assigned Technical Assignment Control Number L33127. Please refer to this number in any future correspondence associated with this submittal. It is noted that the submittal includes practices intended to comply with NEI-08-11, and we plan to use this opportunity to close TAC L32909.

Initial review of this action has identified issues that require additional information. Please provide the information requested in the enclosure within 30 days of the date of this letter.

In accordance with Title 10 of the *Code of Federal Regulations* 2.390 of the U.S. Nuclear Regulatory Commission's (NRC's) "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of NRC's document system (Agencywide Documents Access and Management System [ADAMS]).
