Dear Mr. Thompson:

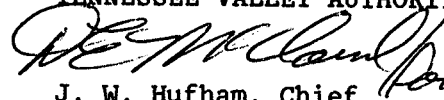

TECHNICAL SPECIFICATIONS FOR GENERIC LETTER 83-28, ITEMS 4.3 AND 4.4 (GENERIC LETTER 85-10)

Our response for this generic letter for Bellefonte Nuclear Plant (BLN) is as follows:

BLN draft technical specifications are based on Babcock and Wilcox's (B&W) standard technical specifications for this plant. This technical specification change will be evaluated by TVA and B&W and a proposed technical specification change in response to this request will be included in our draft technical specification when they are submitted to NRC for review and approval. Our schedule for submittal of the draft technical specification is one year prior to fuel load.

Very truly yours,
