Gentlemen:

As you are aware, 10 CFR 170 of the Commission's regulations for license and inspection fees was revised effective June 20, 1984. Section 170.12(b) of the revised rule provides that for application for permits, licenses, facility reference design approvals, and special projects which have been on file with the Commission for review for six months or longer, billings would be made at six-month intervals or when the review is completed, whichever is earlier.

Consistent with the requirements of 10 CFR 170.12(b), we have completed the cost analysis for the Bellefonte 1 and Bellefonte 2 OL application reviews for the period June 24, 1984 through December 22, 1984. The costs through that period are \$76,340 for Bellefonte 1 and \$15,587 for Bellefonte 2. The enclosures show a breakdown of the review costs by program office. Based on a reexamination of the costs for the previous billing period by the Office of Nuclear Reactor Regulation, an adjustment of \$12,988 has been made to the Bellefonte 1 bill, leaving a balance due of \$63,352. The Office of Resource Management has been notified to bill the Authority \$63,352 for Bellefonte 1 and \$15,587 for Bellefonte 2. When making payment, please make reference to the bill numbers.

Sincerely,

Original Signed By
Wm. O. Miller
