Dear Mr. Thadani:

Recent activities surrounding reactivation of the Bellefonte Nuclear Power Plant has generated increased information and discussion. As a result, on July 14, 1993, the Nuclear Regulatory Commission and Tennessee Valley Authority came together to discuss plant status. As part of the continued positive relations with local and state officials, copies of minutes were provided to various offsite organizations.

The State of Alabama Emergency Management Agency would very much like to be included in the list of offsite organizations receiving future minutes. The address below should be used to provide any further correspondence.
