Docket Nos. 50-438
50-439

**BELLEFONTE NUCLEAR PLANT (BLN) - COMPLIANCE WITH 10 CFR 50.63
REQUIREMENTS FOR STATION BLACKOUT - REVISED SCHEDULAR
COMMITMENT**

TVA notified the NRC of resumption of completion activities for BLN in the March 23, 1993 letter to Dr. Thomas E. Murley from O. D. Kingsley. The March 1993 letter includes a commitment to provide information to NRC by July 30, 1994 describing BLN's plans to comply with the requirements of 10 CFR 50.63, "Station Blackout." This information has not been finalized and, as a result of recent staff reassignments and contractor reductions at BLN, TVA must revise its schedule. TVA now plans to submit this information no later than one year before Unit 1 fuel load.

The enclosure identifies the specific commitment contained in this letter.

Should there be any questions regarding this information, please telephone G. M. Morrison, BLN Acting Site Licensing Manager, at (205) 574-8057.
