Export License PXB143.00, EXPEDITED AMENDMENT

Enclosed you will find an application for a license amendment to export license, PXB143.00 issued to The Curators of the University of Missouri. The purpose of the amendment is to change the name of our consignee located in Belgium.

MDS Nordion SA, located in Belgium, has been purchased by another company and will be changing their name to Best Medical Belgium SA. The receiving location, isotope, activity and end use remain unchanged. We have been informed that the name change will take effect April 15, 2011 in their Belgian licensing system.

We will make one more export shipment on April 13, 2011 under current license conditions. Our next scheduled shipment to this consignee is May 4, 2011 at which time their name change will be in effect.

The material exported is used to manufacture medical devices for the treatment of cancer. Please expedite this amendment request so that critical patient treatments are not interrupted.

If you should have any questions regarding the content of our application, please contact John Ernst, our Associate Director for Regulatory Assurance, at (573)882-5226, or ernstj@missouri.edu.

Sincerely,
