Subject: 3-31-11 Initial Phone Call to Petitioner Bill Linton (G20110197)

Mike Markley, Tanya Mensah, Merrilee Banic, and I made the initial phone call to Mr. Linton this morning. I had previously provided Mr. Linton a copy of MD 8.11. I explained the basic process and why we had chosen to address his concerns with the petition process, and that the petition process is a public process. Mr. Linton had no objections to making public his identity or the information in his 3/16/11 email to the NRC.

Mr. Linton confirmed that (1) he desired to have the NRC address his concerns under the 2.206 process, and (2) he did not wish to address the PRB prior to its initial meeting.

I closed the call by telling Mr. Linton that someone from the NRC, probably me, would contact him after the PRB meeting to discuss the board's initial recommendation and offer him the opportunity to address the board before it made its final recommendation, and to remind him that he could call or email me if he had additional questions.

Thanks, Fred Lyon (x2296)
