Napa, California 94558

Mail Control No. 574690

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION

Dear Mr. Vasstrom:

This refers to your letter dated February 23, 2011, requesting the addition of certain lamps to your NRC exempt-distribution license no. 04-23959-01E. We currently do not have sufficient information to complete the review of your amendment request. In order to continue our review we ask that you provide the following additional information:

Your letter stated: "The lamps are identical as it relates to electrodes, filament, output and structures to lamps already listed with the Agency, and are subject to the same quality control and reporting guides." However, your request appears to indicate that the physical structure of the proposed new models will differ somewhat from the existing models.

Therefore, in order to resolve any possible discrepancy, please:

1. Submit drawings for the four new lamp models and their corresponding existing versions, with any notations necessary to indicate how the new lamp models differ from their counterparts.
2. Provide additional details concerning the portion of your statement pertaining to lamp structures; i.e., explain why the NRC should be satisfied that no structural differences exist, or that any such differences are insignificant.
3. Indicate whether the new lamp models conform to the commitments made in your letters dated September 24, 2007, and October 16, 2007.

If we do not receive your reply within 30 calendar days from the date of this letter, we will consider your application as having been abandoned by you. This action would be without prejudice to the resubmission of another application with the required information.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in NRC's Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

L. Vasstrom
