ROSE

Dear Mr. Rose:

This letter is in response to your letter concerning training you provided in Secaucus, New Jersey from February 13-21, 2009; and appears to be related a license amendment request submitted by an NRC Region I licensee.

Thank you for describing your training program and clarifying that its approval for 100 hours of Category I Continuing Medical Education credit is not equivalent to 100 hours of classroom and laboratory training.

The policy of the NRC regional offices is to work directly with our licensees, not third parties, during review of license amendment requests. We encourage you to work with our licensees and provide them with the information necessary to support their requests.

For further information or questions, please contact me at (610) 337-5022. Thank you for your cooperation.

Sincerely,
