Ms. Dixy Lee Ray  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

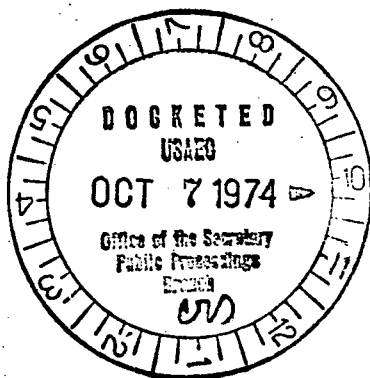

Dear Ms. Ray: Docket Nos. 50-438 and 50-439

Contrary to all precedent and all consideration of the public interest, Elizabeth S. Bowers has set the evidentiary hearing on health and safety matters for the Bellefonte Nuclear Plant in Huntsville, Madison County, Alabama, instead of Scottsboro, Jackson County, Alabama, the location of the site. I trust that you will take the necessary steps to discharge Ms. Bowers as an employee of the United States because of her insulting and arrogant attitude toward the people of Jackson County, Alabama, and that she will be replaced in the Bellefonte matter by a Chairman who will show the proper respect toward us.

Very truly yours,

*William C. Garner*
