OCT 10 1973

Docket Nos. 50-438
and 50-439

Dr. Daniel P. Hale
1000 Airport Road
Huntsville, Alabama 35802

Dear Dr. Hale:

I have been informed that you have filed a request to intervene in the public hearings to be held in connection with the application of the Tennessee Valley Authority for a license to construct the Bellefonte Nuclear Plant, Units 1 and 2.

It is our policy to meet with members of the public who may have concerns regarding the proposed construction or operation of nuclear power plants to elicit information as to the nature of the concerns, such that the radiological safety and environmental impact reviews conducted by the Regulatory staff can be responsive to these concerns. Such meetings also provide an opportunity for staff members to discuss the licensing process and to answer questions regarding the proposed facility.

An Atomic Safety and Licensing Board now has been appointed to conduct the public hearing for this license application and it is probable that a special prehearing conference will be scheduled within the next few weeks to consider this matter. It is desirable that we meet with you before that time.

Mr. Don K. Davis has contacted you by telephone to arrange a meeting and I understand that October 30th is convenient for you. Accordingly, this is to confirm that Mr. Davis and several other members of the Regulatory staff will be in Huntsville on October 30th and will plan to meet with you at a mutually convenient location that evening or the following morning. Mr. Davis will contact you before that date to set up a firm time and location for the meeting.

Sincerely,

Original Signed By
A. Giambusso

A. Giambusso, Deputy Director
for Reactor Projects
Directorate of Licensing
