DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF THE SECRETARY
WASHINGTON, D.C. 20201

Regulatory File Cy.

MAR 18 1974

Mr. Daniel R. Muller
Assistant Director for Environmental
Projects
Directorate of Licensing
Atomic Energy Commission
Washington, D. C. 20545

Dear Mr. Muller:

Thank you for your letter of February 1 requesting comments on the draft Environmental Impact Statement for the Bellefonte Nuclear Plant, Docket Numbers 50-438 and 50-439. Based on the review by appropriate program agencies and regional offices, we have the following comments to offer:

It has been determined that the proposed plant can be constructed and operated without an undue impact on the environment or the health of man from releases of radioactive materials.

However, the temporary impact on local facilities during the construction period, when as many as 2200 workers will be employed at the plant site, will be significant in that it will over-tax already inadequate sewage treatment and medical care facilities. While plans have been developed to improve the existing sewage treatment facilities, these have low priority for State budget support at the present time.

It is also estimated that the impact on local schools will require an additional \$88,000 annual expenditure for instruction plus the provision of eight additional classrooms. Will the Tennessee Valley Authority provide temporary room facilities to affected schools as it has in past situations of this sort?

Thank you for the opportunity to comment on this statement.

Sincerely,

Charles Custard
Director
Office of Environmental Affairs
