Docket Nos. 50-438
 and 50-439 ✓

SEP 18 1973

Mr. W. J. Starnes
 Alabama Development Office
 State Office Building
 Montgomery, Alabama 36104

Dear Mr. Starnes:

I am forwarding the Environmental Report prepared by the Tennessee Valley Authority for the proposed construction of the Bellefonte Plant, Units 1 and 2.

A brief explanation is warranted, however, as you may have already received from TVA identical documentation. A revised procedural agreement has been instituted jointly between the AEC and TVA, which states that in all future reviews of TVA nuclear facilities the AEC will now consider the TVA draft environmental statement to be the Environmental Report required of all non-Federal applicants and will independently prepare an AEC Environmental Statement using the TVA environmental statement as the basis.

This information is to be made available to State and local officials in accordance with procedures set out in the Office of Management and Budget Circular No. A-95 (Revised), and the Commission's regulations in Appendix D of 10 CFR Part 50.

We appreciate your assistance in making this document available.

Sincerely,

Wm. H. Regan, Jr., Chief
 Environmental Projects Branch #4
 Directorate of Licensing
