Subject: Please Add Documents into ADAMS - Japan Support Data
Attachments: tmi2 entry data.pdf

Erika, the attached letter came directly to me via the U.S. Postal Service mail system and I would like to put it and the attached files on CD disk into ADAMS as a package. These documents were requested by the NRC Incident Response Center to support our ongoing Japan efforts.

I have completed the SUNSI review and all the files can be profiled as Public, non-sensitive. I have also provided a 665P form separately for documentation purposes.
