Mr. A. Schwencer, Chief
Pressurized Water Reactors Branch No. 4
Directorate of Licensing
Office of Regulation
U.S. Atomic Energy Commission
Washington, DC 20545

Dear Mr. Schwencer:

In the Matter of the Applications of) Docket Nos. 50-438
Tennessee Valley Authority) 50-439

In response to your letter of October 2, 1973, requesting additional information pertaining to Chapter 17 of the Bellefonte Nuclear Plant Preliminary Safety Analysis Report (PSAR), we intend to respond to all questions by November 9, 1973.

In response to your letter of October 3, 1973, requesting additional information pertaining to Chapter 2 of the PSAR, we cannot meet the requested October 15, 1973, response date due to the very late date on which we received the questions and the nature of the information requested.

The response to Question 2.53 requires a detailed onsite field investigation be performed which cannot be completed and documented before November 1, 1973.

A complete response to Question 2.54 requires our test bore hole drilling program be completed. This program will not be completed and documented until November 26, 1973; however, a general statement concerning the progress of this program will be provided by November 1, 1973.

A response to Question 2.55 will be provided by November 1, 1973.

Very truly yours,

J. E. Gilleland
