TENNESSEE VALLEY AUTHORITY
CHATTANOOGA, TENNESSEE
37401

January 22, 1974

Mr. A. Schwencer, Chief
Light Water Reactors Branch 2-3
Directorate of Licensing
Office of Regulation
U.S. Atomic Energy Commission
Washington, DC 20545

Dear Mr. Schwencer:

In the Matter of the Applications of) Docket Nos. 50-438
Tennessee Valley Authority) 50-439

In your letter dated January 11, 1974, you provided TVA with Regulatory Staff positions and requests for additional information that were developed in the staff's review of the Greenwood application. You requested that TVA state our intent regarding compliance with each of the positions and, where applicable, provide the requested additional information. In addition, you requested that TVA provide a tabulation of the differences between the Bellefonte NSSS and fuel design and that of the Greenwood facility.

Amendment 8 to the Bellefonte PSAR, which was transmitted to the AEC on January 21, 1974, included all those NSSS and fuel design modifications indicated in our December 14, 1973, letter. Furthermore, Amendment 8 also incorporated most of the information requested on the Greenwood application into our PSAR. For your convenience, a tabulation will be provided by February 28, 1974, indicating where the material which was requested on the Greenwood application appears in our PSAR. Any requested information not provided in Amendment 8 will be provided by February 28, 1974.

There are no differences between the Bellefonte NSSS and fuel design and that of the Greenwood facility in regard to the NSSS and fuel design modifications identified in our December 14, 1973, letter.

Very truly yours,

J. E. Gilleland
J. E. Gilleland
Assistant to the Manager of Power

Mr. James L. McFarland
