Dear Mr. O'Leary:

In the Matter of the Applications of ) Docket Nos. 50-438  
Tennessee Valley Authority ) 50-439

In response to A. Schwencer's letter dated December 4, 1973, we have examined our facility design against the Regulatory Staff document "Physical Independence of Electric Systems" and have concluded that we will be in full conformance with the criteria presented. The Bellefonte PSAR will be amended in the near future to incorporate the staff document as a design requirement.

Very truly yours,

J. E. Gilleland  
Assistant to the Manager of Power
