CHATTANOOGA, TENNESSEE 37401

July 29, 1976

Director of Nuclear Reactor Regulation
Attention: Mr. Olan Parr, Chief
Branch No. 3
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Parr:

In the Matter of the Application of) Docket Nos. 50-438
Tennessee Valley Authority) 50-439

This is in response to your letter to Godwin Williams, Jr., dated June 25, 1976, requesting a schedule for providing additional information on the Bellefonte Nuclear Plant reactor vessel support design.

TVA will provide the requested information in the Bellefonte FSAR submittal, which is now scheduled for December 1, 1977. TVA believes that this schedule is appropriate and timely. As you know, Babcock & Wilcox is approaching this subject generically with the NRC staff and has submitted a schedule for documents (see enclosed list and schedule), all of which provide part of the information requested in your June 25, 1976, letter. We expect that these topical reports will be received and approved before the Bellefonte FSAR is submitted. Thus, the requested information will be provided in the FSAR through references to the topical reports.

Very truly yours,

J. E. Gilleland
Assistant Manager of Power
