Docket Nos. 50-438
and 50-439

Mr. L. M. Mills, Manager
Nuclear Regulation and Safety
Tennessee Valley Authority
400 Chestnut Street Tower II
Chattanooga, Tennessee 37401

JAN 23 1980

Dear Mr. Mills:

SUBJECT: PROPRIETARY INFORMATION UNDER 10 CFR PART 2.790

In your letter of November 2, 1979, you stated that during the past two years, varied submittals have been provided to the Nuclear Regulatory Commission (NRC), pertaining to the Bellefonte Nuclear Plant Security, Contingency, and Training and Qualification Plans. You further stated that for each of these documents an individual within the NRC was requested to return receipts for the proprietary plans to the Tennessee Valley Authority (TVA) and that, to date, the NRC has not returned several return receipts as requested. You provided a list of all the material provided to the NRC and requested that the return receipts be returned to TVA.

The NRC shares your concern for the proper handling of proprietary information. The NRC in its regulations at 10 CFR Part 2.790 specifically provides for the handling of proprietary information and our internal procedures provide for the protection of proprietary information under our control. I would suggest, that in the future, TVA send any information, proprietary or non-proprietary, for which a receipt is desired, by registered mail. This would provide TVA with a receipt for the material submitted.

If you have any questions, please get in touch with me.

Sincerely,

Original Signed by
O. D. Parr

Olan D. Parr, Chief
Light Water Reactors Branch No. 3
Division of Project Management
