September 19, 1974

Mr. W. G. McDonald, Director
Office of Plans and Schedules
Directorate of Licensing - Regulatory
United States Atomic Energy Commission
Washington, DC 20545

50-438/439

Dear Mr. McDonald:

In response to your telegram dated September 11, 1974, requesting the latest fuel loading/commercial operation estimate for units due to be granted construction permits in F.Y. 1975 and the reason for any slippage from our original fuel loading estimate, the Bellefonte Nuclear Plant, units 1 and 2, is our only plant for which we expect to receive a construction permit during F.Y. 1975. Our latest estimated fuel loading/commercial operation dates are as follows:

	<u>Unit 1</u>	<u>Unit 2</u>
Fuel Loading	6/79	3/80
Commercial Operation	12/79	9/80

This change reflects minor adjustments in our construction schedule and results in a three-month slippage from the dates indicated in our application. It is in no way related to either financial difficulties or a decreased need for power.

Very truly yours,

J. E. Gilleland

J. E. Gilleland
Assistant to the Manager of Power
