

15 April 2011

U.S. Nuclear Regulatory Commission  
ATTN: Document Control Desk  
Washington, DC 20555-0001

**SUBJECT:** Hyperion Power Generation Inc. Response to NRC Regulatory Issue Summary 2011-02, *Licensing Submittal Information and Design Development Activities for Small Modular Reactor Designs*

**REFERENCE:** (a) NRC Regulatory Issue Summary 2011-02, *Licensing Submittal Information and Design Development Activities for Small Modular Reactor Designs*, dated February 2, 2011

(b) Hyperion Power Generation Inc. Response to NRC Regulatory Issue Summary 2011-02, *Licensing Submittal Information and Design Development Activities for Small Modular Reactor Designs*, dated March 15, 2011

As requested in Reference (a), Hyperion Power Generation Inc. (Hyperion Power) provided the Nuclear Regulatory Commission (NRC) with information in Reference (b) regarding its small modular nuclear power reactor referred to as the HPM (Hyperion Power Module). Upon further consideration, and in the interest of continuing its efforts to develop a high quality licensing submittal for the NRC, Hyperion Power has decided to withdraw its March 15, 2011 response in Reference (b). At this time, Hyperion Power does not anticipate that it will make any submittals of the type discussed in Reference (a) in a timeframe that will affect the NRC's current schedule and resource planning efforts. Hyperion Power will promptly inform the NRC if its plans change.

Hyperion Power requests that all future correspondence and inquiries be directed to me, Robert E. Prince, at Hyperion Power Generation Inc., 2399 Blake Street #105, Denver Colorado 80205, tel. 505.216.9130; email: bobprince@hyperionpowergeneration.com, as Mark S. Campagna, former Chief Nuclear Officer/Chief Operating Officer for Hyperion Power, is no longer with the company.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Prince", with a stylized flourish at the end.

Robert E. Prince  
Vice Chairman / Chief Executive Officer  
Hyperion Power Generation Inc.
