RE: Byproduct Materials License #25-00326-06

Dear Sir/Madam:

This is a request for amending Montana State University's Broad Scope (Type A) Byproduct Materials License #25-00326-06 as follows.

We would like to request permission to use/possess a Ritverc MCo7 Series Mossbauer Spectroscopy System with a Co-57 source limit of 220 mCi.

We are also requesting this to be expedited since the device is currently in our possession as there was an oversight on the shippers part checking our License and lack of communication on MSU's part between the researcher and myself as in I was never notified at all regarding this unfortunately until after it arrived.

Please do not hesitate to contact me with any questions or comments regarding this application for license amendment.

For Montana State University,
