Mike – STP sent this in today for our consideration. I assume you will send this out to folks for review. Also, in my post PPM call to STP today they emphasized they would like to be sure to have the tech staff available on Wed to discuss proposed technical changes that were requested. They would also like our feedback on the departure and LC.

Mike,

Below is a revised proposed license condition to address ABWR DCD Tier 2 Table 12.2-3b, additions are underlined, deletions are in strikeout.

License Condition for Table 12.2-3b

NINA proposes the following License Condition for the information in Tier 2 Table 12.2-3b which is incorporated by reference from the ABWR DCD in the STP 3 & 4 COLA:

The licensee shall not use the information provided in ABWR DCD Tier 2 Table 12.2-3b “Gamma Ray Source Energy Spectra – Post-Operation Gamma Sources in the Core” for detailed facility design or as a basis for any changes to the final safety analysis report (FSAR) ~~Tier 2 information that would otherwise be authorized by Section VIII of Appendix A to Part 52,~~ until Table 12.2-3b is changed by the licensee under the provisions of Section VIII.B.5 of Appendix A to 10 CFR Part 52.

With the changes incorporated, the wording is as follows:
