Tekia,

You may want to forward this letter to the call participants (response to RAI 05.04.06-3 (U7-C-STP-NRC-100145, ML101750069). It explains that the cales are not complete and that we are going back to the DCD value, which is bounding. Coley seemed to think you said the call was at 3:30 CDT; it's at 3:00.
