**Cc:** STPCOL; Hawkins, Kimberly; Chakrabarti, Samir; Chakravorty, Manas  
**Subject:** STP - Input Deck for Confirmatory Analysis

John,

I believe I mentioned this in prior informal phone conversations but I'm not sure.

The confirmatory analysis to resolve the Poisson Ratio issue most likely will be referred to in our SER. Although the input deck was provided during the March 2011 audit, it needs to be formally submitted such that there is record in the docket. I should have added this to the action item list such that we will not forget until late.

Regards

Tom Tai
