Docket No. 52-021
MHI Ref: UAP-HF-11100

Subject: Submittal of Revision to Published Topical Report (PQD-HD-19005-A Revision 0) entitled Quality Assurance Program (QAP) Description for Design Certification of the US-APWR

References: 1) Letter MHI Ref: UAP-HF-09445 from Y. Ogata (MHI) to U.S. NRC, "Submittal of Revision to Published Topical Report (PQD-HD-19005-A Revision 0) entitled Quality Assurance Program (QAP) Description for Design Certification of the US-APWR," dated September 14, 2009

By letter dated September 14, 2009 (Reference 1), Mitsubishi Heavy Industries, Ltd. (MHI) submitted a revised version of Quality Assurance Program Description (QAPD) PQD-HD-19005-A, Rev.0, to the U.S. Nuclear Regulatory Commission (NRC).

The purpose of this letter is to forward a further revised version of PQD-HD-19005-A, Rev. 0, to the NRC for approval. The change to PQD-HD-19005-A, Rev. 0, is a change of organization in the Nuclear Energy Systems in MHI. MHI is making this revision for administrative purposes only, and as such, this revision does not change any QA program commitments documented and approved by the NRC in the Safety Evaluation Report dated January 24, 2008 and does not reduce any QA program quality or safety aspects of the Design Certification.

Since Chapter 17 of the US-APWR Design Control Document (DCD), Revision 3 references Revision 3 of QAPD, MHI will update the revision number of QAPD in the future revision of the DCD.

We make this administrative change to our QAPD effective April 1, 2011 since it does not reduce any QAP commitments or quality aspects of the design certification. We are requesting formal NRC review and approval as an administrative revision to our Quality Assurance Topical Report.

Sincerely,

Yoshiaki Ogata,
General Manager-APWR Promoting Department
Mitsubishi Heavy Industries, LTD.
