Mr. Lodhi,

Thank you for the information. We are in the process of having the gauges leak tested. Once we receive the test results, we will forward them to you.

Thanks,

Kirk Eastman

Subject: Your Request to Terminate your License

Mr. Eastman:

I understand that you possess 4 moisture density gauges. Regulations require that you have the gauges leak-tested prior to transfer to another authorized recipient. You submitted leak test records that are old. Please have the gauges leak tested and submit the results to this office so that we can terminate your license after we have verified that all gauges are transferred to another authorized recipient. Please refer to Control number 574792 in your response. I also left a message on your voice mail reminding you of testing your gauges for leakage before transferring the gauges to another licensed entity. Please feel free to call me at (610) 337 5364 if you have any questions.
