Name of Licensee: Gamma Irradiator Service

Name of Participant(s): Terry Stout, Gamma Irradiator Service;
Shawn W. Seeley, Health Physicist RI/DNMS/DB

Telephone No. 570-925-5681

Subject: Request for Additional Information
(NOTE: This will be used as the Documents Title in ADAMS)

I called to speak with Mr. Stout regarding his amendment request to add another user and an administrative action we are initiating that concerns possession limits for service providers. I told Mr. Stout that I was assisting Kathy Modes with this amendment in addition to an administrative action we were performing on his license. I explained to him that we received the okay from Headquarters to change the conditions of his license to reflect the following: that possession limits were written so that security banners are unnecessary and that he does not take possession of the devices at any time. I asked him if this would work for him. He confirmed that he does not take possession of the devices and agreed it sounded like the license changes would be acceptable but requested that I email him the details, if possible, so he could review it as well. I told him I would do that today. I told him we should have his amendment out in the next couple of weeks. I thanked him for his time and ended the call.

Action Required: Send email to Mr. Stout, wait for his confirmation that all will be acceptable, then move the amendment through the process.
