Daniel Odess, Ph.D.
Acting Departmental Consulting Archeologist
U.S. Department of the Interior
National Park Service
1849 C Street, N.W. (2275)
Washington, DC 20240

Dear Dr. Odess:

This responds to your February 17, 2011, letter [H2621(2275)] requesting participation in reporting to Congress on the archeological activities that the U.S. Nuclear Regulatory Commission (NRC) conducted or required in Fiscal Year 2010.

Following the guidelines as set forth in the instructions for the questionnaire, we have reviewed only Sections A through I, which are enclosed. We have no data to report with regard to Listing of Outlaw Treachery records.

The NRC does not have Federal land management responsibilities, and therefore, does not directly engage in maintaining or restoring archeological or historic properties that may be identified during the environmental review process for issuing permits or licenses. However, in consultation with appropriate State Historic Preservation Offices and Tribal Historic Preservation Offices, NRC licensees may decide to take mitigative measures to protect such properties. As a regulatory agency, NRC does not incur any direct costs associated with the protection or enhancement of archeological and historic resources.

Should you have any questions, please contact Dr. Stephen Salomon of my staff at (301) 415-2368 or e-mail: Stephen.Salomon@NRC.GOV.

Sincerely,

/RA/

Josephine M. Piccone, Director
Division of Intergovernmental Liaison
and Rulemaking
Office of Federal and State Materials
and Environmental Management Programs

Enclosure:
NRC's response to Sections A through I,
Federal Archeology Questionnaire
