Subject: RE: Upcoming meeting on the extended spent fuel storage plan

Andrea
From the 15th through the 24th, Steve Kraft and I are available the following times:
The morning of the 15th (we would need to leave by 10am but can arrive as early as you wish)
The 16th at 4pm
The 20th in the morning (we would need to leave by 11am but can arrive as early as you wish)
The 20th at 4pm
The 23rd all day

I am sorry we don't have more availability on the 15th and 16th. We may be able to accommodate a meeting on the 17th in the morning but I would have to check with Steve because his calendar isn't currently free that day.

Thanks
Everett

Andrea,

Your proposal sounds good. I am on travel today and will check my calendar and Steve Kraft's calendar tonight and send you an email with our availability after the 14th.

Thanks
Everett

Subject: Upcoming meeting on the extended spent fuel storage plan

Everett: I plan to invite the other Commission office technical assistant to the meeting we discussed having last week. The other assistants expressed an interest in coming but I don't have an exact attendance list as of yet. The purpose of the meeting would be to gain your feedback on the proposed extended spent fuel storage plan that was provided to the Commission by the NRC staff on June 15, 2010.

After discussing with the other TAs, we think it would be best to meet after Sept. 14. Sometime that week would work best for us. My schedule looks open. Can you provide times when you might be available and let me know who else from NEI will attend? Once we have a date set, I will get back to you on the location and the attendees from the NRC.

Actually Everett Redmond is the main dude on extended storage.

His number is: 202-739-8122.

Thanx, Rod
