

NRC Suggestions for Revising NEI 96-07, Appendix B, “Guidelines For 10 CFR 72.48 Implementation”

L. Raynard Wharton, Senior Project Manager
Division of Spent Fuel Storage and Transportation
Office of Nuclear Material Safety and Safeguards

March 28, 2011

Suggestions

- Review 72.48 inspection reports for lessons learned
 - Holtec International, Inc. (ML092180140)
 - Transnuclear, Inc. (ML063130354)
 - Calvert Cliffs (ML053070583)
- Clarify the definition of implementation consistent with 10 CFR Part 72 applications (vendors currently use the 50.59 definitions)
- Clarify guidance on “change in methodology or change in method of evaluation”

Suggestions (continued)

- Review statement of considerations for 10 CFR 72.48 (64FR53582)
- Revise examples to reflect actual Part 72 situations
- Suggest vendors distinguish 72.48 changes incorporated in the FSAR from proposed CoC amendment changes
- Emphasize the responsibility licensees have for vendor initiated 72.48 changes adopted by the licensee
