File Cy7

June 19, 1973

Mr. John F. O'Leary, Director
Directorate of Reactor Licensing
United States Atomic Energy Commission
Washington, DC 20545

Dear Mr. O'Leary:

LICENSE APPLICATION - BELLEFONTE NUCLEAR PLANT UNITS 1 AND 2

Pursuant to the Atomic Energy Act of 1954, as amended, and the Commission's Rules and Regulations thereunder, the Tennessee Valley Authority hereby applies for construction permits and Class 103 licenses necessary for the construction and operation of a two-unit nuclear power plant to be located at its Bellefonte site in Jackson County, Alabama.

The information required to be furnished as part of this application is set out in this letter and in (1) 28 copies of an accompanying statement of general information furnished pursuant to 10 CFR Section 50.33, (2) 70 copies of an accompanying Preliminary Safety Analysis Report (PSAR) pursuant to 10 CFR Section 50.34, (3) 25 copies of an accompanying statement of information requested by the Attorney General for Antitrust Review pursuant to 10 CFR Section 50.33a, and (4) 50 copies of an accompanying Environmental Statement furnished in lieu of the environmental report required by Appendix D to 10 CFR Part 50. An additional 150 copies of the Environmental Statement will be forwarded in approximately two weeks and another 100 copies will be retained by TVA subject to call by the Commission.

No proprietary data are included in the material now being furnished. In the event proprietary data are included in future supplements or amendments to the application, a request to withhold the proprietary material from public disclosure will be made pursuant to 10 CFR Section 2.790.

Pursuant to 10 CFR Part 140, TVA will execute the appropriate indemnity agreements before the issuance of an operating license.

4020

Mr. John F. O'Leary, Director

June 19, 1973

No restricted data as defined in 10 CFR Section 50.2 are included in the material now being furnished. In the event restricted data are included in any supplement or amendment to the application, the restricted data will be appropriately separated from any unclassified information.

Pursuant to 10 CFR Section 50.37, the applicant agrees that it will not permit any individual to have access to any restricted data until the Civil Service Commission shall have made an investigation and report to the Atomic Energy Commission on the character, associations, and loyalty of such individual, and the Atomic Energy Commission shall have determined that permitting such individual to have access to restricted data will not endanger the common defense and security.

With regard to the requirement in 10 CFR Section 50.33(i), Section 15d(f) of the TVA Act [Tennessee Valley Authority Act of 1933 (48 Stat 58, as amended, 16 U.S.C. §§ 831-831dd (1970))] imposes on the TVA Board of Directors responsibility for charging rates for power sufficient to produce gross revenues to cover specified items and a margin considered desirable by the Board. The Act also makes the Board responsible for determining provisions to be included in TVA contracts relating to power service. Neither TVA's rates nor services are subject to the jurisdiction of regulatory bodies. Accordingly, this part of §50.33(i) is not applicable to TVA.

Pursuant to 10 CFR Part 170, enclosed is a check in the amount of \$70,000 to cover the application fee for the Bellefonte Nuclear Plant.

In accordance with 10 CFR Section 2.101(b), after this application has been docketed, a copy will be served on Sam Gant, chief executive officer of Jackson County. An affidavit from the person making the service will be forwarded to the Commission.

It is requested that any correspondence with respect to this application be sent to the applicant at the following address:

Mr. James E. Watson
Manager of Power
Tennessee Valley Authority
818 Power Building
Chattanooga, Tennessee 37401

Mr. John F. O'Leary, Director
